Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Furthermore, all carriers have used this "fee" to "bilk" their customers out of even more charges. This procedure must be stopped. NO carrier should be allowed to "pass on" any more charges than the actual USF charges. To do so is defrauding their customers. The process should be stopped immediately and to that end I have contacted all my elected federal delegation. It is immoral and unethical for you people to allow this pilfering to go on!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Anthony Pasco
